tips for setting up the
classroom calendar

Hi there!

Thank you so much for downloading my classroom calendar kit! This document will help you get started using the resource with your students.

— Angie

HELPFUL TIPS:

- Open the PDF files with Adobe Reader. If you do not have the most current version of Adobe Reader installed, you can [get it for free here](#).
- Open editable PowerPoint files with Microsoft PowerPoint. Each editable file has instructions on the first page of the download that will list the fonts used, and any other specific directions for that particular resource.

PRINTING TIPS, PT. 2

POSTERS

- Option 1: Print the calendar poster as a black & white engineer print from Staples (about \$5) and then laminate if desired.
- Option 2: Print the calendar on your regular printer in pieces using the “poster” option on the Adobe Reader print settings, then tape or glue together before laminating.

LARGE MONTH HEADERS

- Option 1: Print from Staples as legal size black & white documents, or on a school printer that can print legal size paper.
- Option 2: Print the pages in pieces using the “poster” setting on Adobe print settings, then tape or glue together before laminating.

EVERYTHING ELSE

- All other components will print on regular 8.5” x 11” paper with black ink.

CALENDAR SETUP TIPS:

- If you would like to print the date cards in alternating colors as shown in these photos, use the pages in the date card file that are designated for alternating colors.

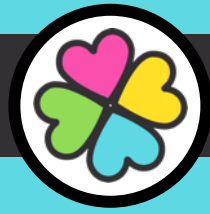

- Measure the space you are going to hang the calendar on prior to printing. The poster is 24" x 36." You can print everything at a smaller scale if you would like it to be smaller.

- After printing the materials, I recommend laminating them for durability.
